A RESOURCE FOR TUTORS AND LEARNING CENTERS

Aspire Psychological Group

Child & Adolescent Therapy · Upper Saddle River, NJ

24 HOUR CALLBACK

When it's more than the material.

Tutors often see what a report card can't: the shutdown, the tears, the student who knows it cold and still freezes. Aspire Psychological Group works only with children, teens and their families, and we're here when what's getting in the way isn't the subject itself.

WHAT YOU MIGHT NOTICE

- Shuts down, cries or gets angry when work gets hard
- Avoids starting assignments or melts down over homework
- Knows the material in sessions but blanks on tests
- Calls themselves stupid or says they'll never get it
- Frequent cancellations or missing school
- Focus or attention struggles that seem bigger than one subject
- Family stress about school spilling into your sessions

NOT SURE HOW TO BRING IT UP?

You don't need to diagnose anything. Share what you've seen and point to a next step:

"She knows this material, but something seems to get in the way when the pressure is on. Have you noticed that too? Here's a team that works with students and families on that."

WHY PARTNER WITH ASPIRE

Kids and Teens Only

Our whole practice is built around children, teens and families. Not a general caseload.

A Warm Handoff

Share our info, or let us know. Our team reaches out to the family within 24 hours.

School Coordination

With parent permission, we coordinate with the student's school so the plan is supported during the day.

HOW A REFERRAL WORKS

1. **You Share**
   Hand the family this flyer, or contact us with their permission.
2. **We Reach Out**
   Our team contacts the family within 24 hours. One less thing for you.
3. **Care Starts**
   No waitlist. A free 10-minute call with the psychologist to see if we're a fit.

SHARED WITH YOU BY _____

YOUR LOGO OR BUSINESS CARD

Private pay, out of network. Many families use their insurance plan's out-of-network benefits to seek reimbursement for part of the cost.

This flyer is for educational purposes only and does not constitute professional advice or create a therapist-client relationship. For concerns about your child, please consult a qualified mental health professional.
